The future of online profitability

The GPS Creative Affiliate Tracking & Management System

Summary

Firstly let us start off that we do not offer any other products than celebrity voices. We have a strict **NO-COMPETE** policy to ensure our partners are happy and that we will never offer the same products for sale as them. We have a unique product and we focus on promoting only this product, which are celebrity voices for GPS devices.

The affiliate program enables GPS Creative partners to register as affiliates and start selling the Celebrity and Novelty voices on offer immediately once they are approved by our admin. Affiliates will earn 10% of the selling price per sale, paid into their bank accounts once a month.

Affiliate marketing is the quick and easy way to leverage your own website as a mechanism to generate income from a different source. If you for instance have an informative site with loads of visits each day but don't have your own products to sell, affiliate partnership is a great opportunity for you. We can customize landing pages for larger accounts and all traffic can be directed back to you once a sale has been completed.

For all the e-tailers out there it is also an awesome solution to start selling a non-competitive product that has proven its market relevance and reputability.

Report Area

The affiliate area features a live earnings report. This will display affiliate account info that will default to the most recent month and will have an option to extend that, to a previous month or give you an overall view.
